About Me

I am a young student interested in learning anything new in the sphere of software engineering. I'm a fast learner trying to utilize anything new that can help me develop application in a faster and cleaner way. Besides software engineering my other hobbies are learning & studying foreign languages.

Skills

- Fast learning
- Flixibility
- Critical thinking
- Problem solving
- Partially UI/UX design

Education

High school

SSŠVT   2022 - now

This is the high school where my software engineering journey has started. I have learned there a lot of technologies I use on the daily basis like Angular, Vue, Typescript, C#, CSS just to name a few.

Work experience

Greengrocer

Albert   2023 - 2024

I was responsible for looks and freshness of groceries. Including checking expiration date of each fruit or vegetable.

Junior software engineer

Taures   June 2025 - now

In this company I have been working as an application tester and "bug fixer" for their .net WPF application.
